

College Standards Worksheet

Below, create a list of personal, financial and academic issues that you consider important to your college experience. Write in the information you find under the "info." column. Then weigh how this school satisfies each value on a scale of 1-5 (1 being a terrible fit and 5 being a perfect fit) in the "rating" column. In the "notes" section, add any additional thoughts or findings on the criteria if you discover aspects you want to focus on in your school research.
